Sophia is an absolutely gorgeous young Husky girl with a beautiful black mask reminiscent of a superhero. Put a cape around her and she could be **Sibergirl**.

Sophia has been passed around in her first year of life with no one making a firm commitment to love or take care of her. Due to being passed around she has not had consistent training to learn what is acceptable behavior and house rules. She's now looking for her forever home with a strong owner who will stick with the commitment of raising a stubborn Husky. Being young and with the right motivation she can learn.

She is full of spirit and youthful energy. She gets along well with other dogs and is currently in a foster home with two other Huskies. Sophia is a big strong girl based on the typically petite female breed standards, but quite majestic looking and very affectionate and sweet.

Sophia is quite mischievous and caution needs to be used with any small objects that are left lying around that she might try to consume such as socks, small toys, etc. Because of her propensity to consume any object left behind she may need to be crated when left unattended until such time as she can be trained out of it. She is already crate trained so this should not present any major difficulties.

Sophia is healthy, Heartworm negative, housebroken, spayed, up-to-date on vaccines and microchipped. This girl is any empty slate for you to make into the dog you always wanted and will bring a lot of attention when you walk her down the street. Young beauties like this are usually not available very long so make yourself happy and fill out an adoption application on our website, www.siberrescue.com, today.
